

Come and help us recognize Chicago's top health practitioners for their international work in underserved or war torn regions. This classy business casual/semi-formal benefit will be set to the backdrop of Jack Cassidy and the Symbia jazz trio as you sample fine wine, bid silently on auction items, and network. This is a first annual event where all proceeds go to the training of student practitioners in the Women's Equity to Access to Care and Treatment (WE-ACTx) clinic in Rwanda that has been providing comprehensive medical and mental health services to women and children affected by HIV and trauma since 2004. For more information contact: health.info.09@gmail.com.
